THE GHOST IN THE CACHE: TINKER TAILOR LLM SPY

PES University C-ISFCR Lab | Black Hat Asia Briefings

Core Vulnerability Breakthroughs:

1. **LevelDB LSM Remanence:** 506 artifacts recovered; 70.8% UI-deleted; 83-day persistence.
2. **Claude TipTap Keystroke Caching:** Unsubmitted draft keystrokes captured before sending.
3. **Unencrypted Document Blobs:** 10MB PDFs and code attachments stored plaintext on disk.
4. **ChatGPT Desktop Key Exposure:** ECDSA private keys stored plaintext in LevelDB logs.
5. **Zero-Dependency Live Engine:** Sub-163ms full-profile scan with HMAC-SHA256 evidence sealing.
